Keywords (10Bold) - About five keywords in alphabetical order, separated by a comma (10)

1. INTRODUCTION (12 BOLD)

The introduction of the paper should explain the nature of the problem, previous work, purpose, and contribution of the paper. The contents of each section may be provided to understand easily about the paper. (10)

The **headings** and **subheadings**, starting with "**1. Introduction**", appear in upper- and lower-case letters and should be **set in bold and aligned flush left**. All headings from the Introduction to Acknowledgements are numbered sequentially using 1, 2, 3, etc. Subheadings are numbered 1.1, 1.2, etc. If a subsection must be further divided, the numbers 1.1.1, 1.1.2, etc.

The font size for **heading is 11 points bold face** and **subsections with 10 points and not bold**. Do not underline any of the headings, or add dashes, colons, etc. (10)

**2. MATERIALS AND METHODS (FOR RESEARCH MANUSCRIPT) FOR
REVIEW NO HEADINGS ESSENTIAL (12 BOLD)**

The first paragraph under each heading or subheading should be flush left, and subsequent paragraphs should have a five-space indentation. A colon is inserted before an equation is presented, but there is no punctuation following the equation. All equations are numbered and referred to in the text solely by a number enclosed in a round bracket (i.e., (3) reads as "equation 3"). Ensure that any miscellaneous numbering system you use in your paper cannot be confused with a reference [4] or an equation (3) designation. (10)

3. FIGURES AND TABLES(12 BOLD)

Figures and tables must be presented in their appropriate places along with their Roman numbering. Figure captions appear below the figure, are flush left, and are in lowercase letters. When referring to a figure in the body of the text, the abbreviation "Fig." is used. Figures should be numbered in the order they appear in the text.

Table captions appear centred above the table in upper- and lower-case letters. When referring to a table in the text, no abbreviation is used and "Table" is capitalized. (10)

4. RESULTS AND DISCUSSION (12 BOLD)

A result Section must be added for both research and review. It must incorporate the outcomes of the research and review article. It can have subheadings also as discussed in the material and methodology section

5. CONCLUSION (12 BOLD)

A conclusion section must be included and should indicate clearly the advantages, limitations, and

possible applications of the paper. Although a conclusion may review the main points of the paper, do not replicate the abstract as the conclusion. A conclusion might elaborate on the importance of the work or suggest applications and extensions. (10)

6. Acknowledgements (12 Bold)

An acknowledgement section may be presented after the conclusion if desired.(10)

REFERENCES (12 Bold)

This heading is not assigned a number.

A reference list **MUST** be included using the following information as a guide. Only *cited* text references are included. Each reference is referred to in the text by a number enclosed in a square bracket (i.e., [3]). References **must be numbered and ordered according to where they are first mentioned in the paper**, NOT alphabetically.
