Guidelines For B.Pharm/ M.Pharm Project

Projects are allocated to the students of B.Pharm VIII Semester and MPharm II Sem as per the University Curriculum. Quality of the project is measured in terms of consideration to factors including, but not limited to, cost, type (application, product, research, review etc.) environment, safety, ethics and standards. The guidelines for the project are as follows:

- The students are will be to submit their choice of area of specialization.
- The R & D Committee allots Supervisors to the individual students.
- Director will display the list of students and supervisors names on notice board.
- The guides should identify the projects in consultation with the students by considering the cost, environmental factors, safety, ethics and standards and allot the same to the students after due discussion.
- The project will be evaluated by the Institute's R & D Committee internally and finally the projects are evaluated by the external examiner allotted by the University
- The published articles related to the project will be documented by R & D committee
