Institutional Policy For Sessional Question Paper

Pharmacy Institute has avowed the sessional question paper guidelines for faculties and students as well. The following guidelines must be followed for preparing of question paper:

- Questions might be categorized as per the complexity level. These will be memory based, application based and evaluation/reflection based.
- The long type questions may preferably consists of several parts depending on type of course contents.
- Atleast 30% of syllabus must be covered before first sessional exam
- In second sessional the next 30% will be covered
- In third sessional, the remaining syllabus will be covered
- There will be no repetition of any unit of particular subject in any sessional
- Topic taught beyond the syllabus will not be include in sessional question paper
- There will be three section in question paper i.e. section A, section B and section C which collectively must cover the syllabus taught. Section A must contain one (1) mark question without any internal choice.
